

DP EMERGENCY RESPONSE COURSE

KONGSBERG

COURSE DESCRIPTION

LEARNING OBJECTIVES

This course is specifically designed for training DPO's and other involved personnel onboard vessels performing high risk operations. This could be, but not restricted to, Pipe Lay, Gangway, Drilling, Heavy lift, Shuttle Tank and SIMOPS.

- Familiarize the operators with the Kongsberg DP control systems principles and functions on a detailed level to enable them to recognize problems and interact correctly with the systems
- Human factor and decision making
- ASOG, procedures and check list training

TARGET GROUP

Officers working with Kongsberg DP equipped vessels.

ENTRY REQUIREMENTS

There is no entry requirements

CONTENT

After completion of the course, the participants should gain a more in-depth knowledge of operating the K-Pos DP control system, C-Joy system and K-Thrust system.

The course introduces the participants to DP specific technology and cover topics specific to various operation types. In-depth knowledge of dynamic positioning software and functionality will be emphasized.

The training will include human factors, focusing on decision-making and communication under time pressure in critical operations.

LEARNING PROCESS

KM Training primary role is to coach and facilitate the students learning process and overall comprehension of material. Our overall approach to the learning process is student-centred where students are placed

in responsibility of their learning and development (inquiry based learning). This is achieved by a mixed theoretical and practical lessons.

DURATION

4 Days

NO. OF PARTICIPANTS

Maximum 8
